

U.S. Consumer Product Safety Commission – Recall

Release Date: June 16, 2022

Release Number: 22-164

Aurohealth Recalls Kroger Brand Acetaminophen Due to Failure to Meet Child Resistant Packaging Requirement; Risk of Poisoning

Recall Summary

Name of Product: Kroger Arthritis Pain Acetaminophen, 225 count bottles

Hazard: The recalled over-the-counter product contains the regulated substance acetaminophen which must be in child resistant packaging as required by the Poison Prevention Packaging Act (PPPA). The packaging of the products is not child resistant, posing a risk of poisoning if the contents are swallowed by young children.

Remedy: Refund

Consumers should immediately store the recalled product in a safe location out of reach and sight of children. Contact Kroger for information on how to properly dispose of the product and receive a full refund.

Consumer Contact:

About the U.S. CPSC

The U.S. Consumer Product Safety Commission (CPSC) is charged with protecting the public from unreasonable risk of injury or death associated with the use of thousands of types of consumer products. Deaths, injuries, and property damage from consumer product-related incidents cost the nation more than \$1 trillion annually. CPSC's work to ensure the safety of consumer products has contributed to a decline in the rate of injuries associated with consumer products over the past 50 years.

Federal law prohibits any person from selling products subject to a Commission ordered recall or a voluntary recall undertaken in consultation with the CPSC.
